Musculoskeletal Radiologist, 424 Hospital, Thessaloniki

A' ORTHOPAEDIC UNIVERSITY DPT/ PAPANIKOLAOU HOSPITAL

Course Objectives

- Aim of the course is for the delegates to discuss and attend treatment of shoulder Sports injuries and pathologic conditions through Arthroscopic Live Surgery demonstration.
 - They will be taught the principles of Shoulder Ultrasound as a diagnostic tool and have the chance to perform themselves during the Musculoskeletal Ultrasound Workshop.
 - They will perform Arthroscopic and open surgery of the shoulder at the cadaveric workshop that will take place in Munich Arthrolab. There will be two delegates per working station. This will significantly help to improve surgical skills.
- A.** During the **1st SKG Live Shoulder Surgery Course** the following topics will be discussed and demonstrated during the Live Surgery Sessions:
- Arthroscopic Surgery of the Shoulder (positioning-portals-instrumentation)
 - Biceps tenodesis
 - Rotator Cuff Repair (single row - double row)
 - Superior Capsular Reconstruction
 - Shoulder Stabilisation (labral repair – knotless)
 - Arthroscopic Remplissage Procedure
 - Latarjet Procedure
 - Arthroscopic Bone Block Procedure
- B.** During the **Shoulder Ultrasound Session** there will be demonstration by experienced Musculoskeletal Radiologists of the Dynamic Ultrasound of the Shoulder. The delegates will be able on a workshop manner to perform Dynamic ultrasound under the direct Supervision of the faculty. Also on the following day during the live surgery session the delegates will be able to directly correlate their ultrasound findings with the surgical findings on the operated patients.
- C.** **Cadaveric Workshop** will take place at **Munich Arthrolab** (<https://www.arthrex.com/link/asset/FKig4euoJUGaPAFROKhhnA>)

There will be 2 (two) delegates per cadaveric working station and will perform all the arthroscopic and open procedures of the shoulder under the supervision of the faculty. There will be available all the Arthrex equipment and implants including shoulder arthroplasty as well.

Location

- Sessions A and B will take place at the University Orthopaedic Department, Papanikolaou Hospital, Thessaloniki.
- Session C will take place at Munich Arthrolab, Munich Germany*.

*** There are only 20 places available for the cadaveric Workshop. A priority application list will be held.**

There is a direct flight on Friday 10th January afternoon from Thessaloniki to Munich. Workshop participants are recommended to book this one so that they have available all day Saturday 11th January for the workshop.
